

Our Advantages —

- **Diverse Product Categories:**

13,000+ Bioactive Compounds and **15,000+** Fragment Compounds can be selected based on your specific needs.

- **Perfect Product Management System:**

The preparation is automated and all products can be traced.

- **Powerful Data Management System:**

Each product is supplied with detailed bioactivity information and physicochemical properties.

- **Rigorous Classification Criteria:**

Based on a large number of literatures and authoritative database analysis, we set accurate classification standards for each library.

- **Quick Update**

The compound libraries are updated every two weeks by adding the latest small molecules published in the field of biomedicine.

- **Competitive Price**

Our Product Portfolio Includes —

 **30,000+** Inhibitors & Agonists

 **3,000+** Life Science Products

 **Diverse Dye Regents**

 **100+** Screening Libraries

 **2,500+** Recombinant Proteins

 **Customized Services**

MCE Bioactive Compound Libraries 30% off

- This promotion includes all MCE ready-to-use Bioactive Compound Libraries and **Customized Libraries**.

- **Valid time: 9/15/2021-12/31/2021.**

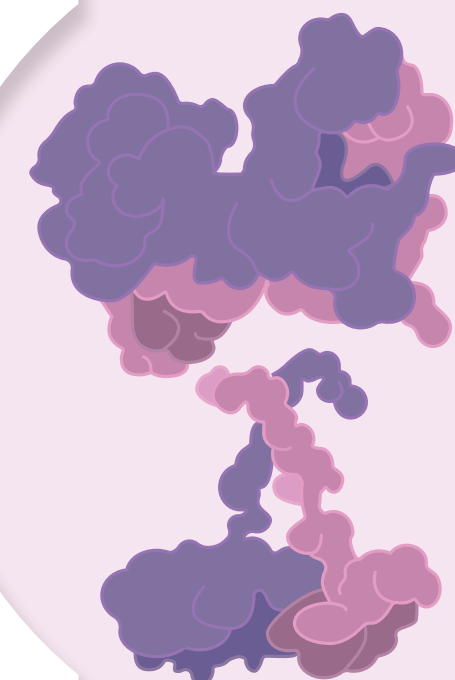

- Want to conduct mechanism research?
- Want to identify new targets?
- Want to discover new drugs?
- Want to conduct drug repurposing?
- Want to accelerate research process?
- Want to reduce research cost?

...

MCE compound libraries would enable your success.

*This promotion is not applicable to orders that less than 500 EUR.

MCE Compound Screening Libraries —

- **100+** Bioactive Compound Libraries, including **13,000+** Bioactive Compounds
- Diverse biological activities, covering **500+** different targets
- Safety and efficacy have been confirmed in numerous literatures
- Detailed product information is available
- High purity and quality validated by NMR and LC/MS
- Customized libraries are also available

Customized Libraries are also Included in This Promotion —

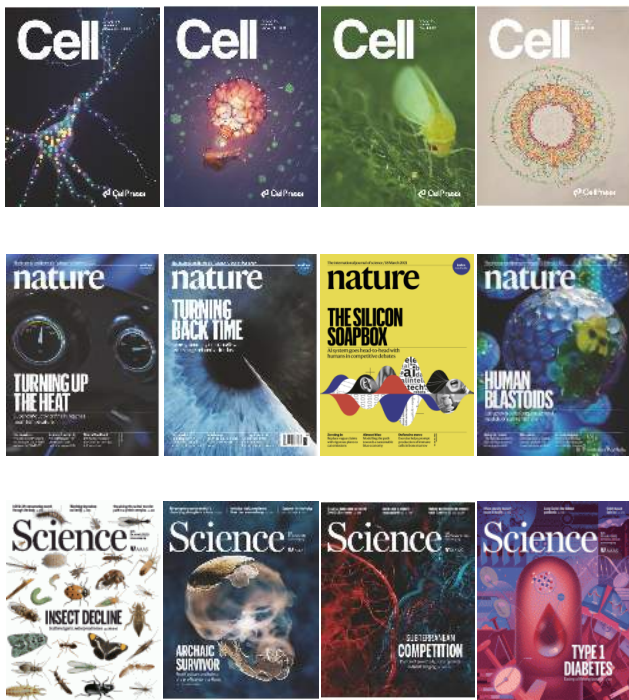

We can provide you with a customized compound library based on your needs.

You can select:
